About Spaces of Exchange: Spaces of Exchange is a virtual gathering created by independent curator Jacqueline Kok on the ICFAC platform. Borne in response to the racism that has surfaced due to the pandemic as well as the need for uncomfortable conversations over a wide variety of topics, including but not limited to, activism, the notion of identity, political violence, and the failing capitalist system, Spaces of Exchange (SE) aims to connect international and national Chinese art professionals and generates moments and conversations that allow for deeper understanding, learning and unpacking.

About ICFAC: Formed in 2006, the International Chinese Fine Arts Council (ICFAC) is a 501c3 nonprofit organization focused on providing a network and platform to support the collaboration and advancement of Overseas Chinese in the Arts, with an emphasis on Chinese Diaspora. Our core mission is to advocate for humanity and sustainability, strengthen the exposure for Overseas Chinese voices, and stand up against hate and discrimination -- through supporting, engaging and connecting Overseas Chinese creatives and art lovers to better resources, opportunities and representation.
